STEAMER FOUNDERS; 10 PASSENGERS LOST

Captain of Vessel Also Swallowed
by Sea.

WRECKED OFF HAINAN HEAD

Steamer Kohschang Picked Up Raft
Belonging to Ill-Fated Vessel on
Which There Were 26 People Who
Had Been Drifting For 43 Hours.

Hong Kong, Oct. 5.—The emigrant
steamer Kohschang, voyaging be-
tween Hainan and Hong Kong, found-
ered off Hainan head on Sept. 30.
Captain Clifton and 60 passengers
were lost.

The North German Lloyd steamer
Kohschang has picked up a raft be-
longing to the Charter House on
which were Chief Engineer Wowas,
23 of the crew and two women, after
they had been drifting for 43 hours.

SHIP HELD UP BY ROBBERS.

Passengers Were Terrified and Six
Thousand Dollars Stolen.

Poti, Trans-Caucasia, Oct. 5.—Twenty-
five men, who were armed with re-
volvers and rifles, boarded the Black
sea steamer Czarevitch George at var-
ious points between Sukhara Kale, a
seaport on the Black sea, 70 miles
from Poti and Novorossysk, on the
east coast of the Black sea, succeed-
ed in abstracting and getting away
with \$6,000 from the mail and the
ship's treasury during the night of
Oct. 1.

Firing their weapons and shouting
to the steerage passengers not to
move, the robbers drove the crew into
the steerage and occupied the ap-
proaches to that part of the ship,
threatening the passengers and crew
with death if they resisted. The first-
class passengers fired some shots at
the robbers, who, however, compelled
the captain of the steamer to order
the immediate cessation of the firing.

After securing the money the rob-
bers compelled their hostages to put
them ashore in one of the ship's
boats.

BAD NEGRO IS RECAPTURED.

Randal Brown Had Skipped Bond and
Fled to Cuba.

Waycross, Ga., Oct. 5.—The ar-
rest of Randal Brown, Jr., a negro,
by Deputy Sheriff Anderson gave no
little pleasure to Waycross people.

Brown was convicted here some
years ago for knocking down a white
woman, a Mrs. McKenzie, and was
sentenced to serve 12 months on the
chain gang. His attorneys applied
for a new trial and while the case
was before the supreme court the
negro skipped his bond, leaving here
for Cuba. His bondsmen paid their
obligation of \$500, but Brown's sen-
tence was hanging over him. He
skipped into the city a night or two
ago and Sheriff Miller was notified
and a raid was made on his father's
house before daylight. Brown at-
tempted to escape by a window, but
was captured.

He will serve a sentence on the
chain gang and a warrant for larceny
awaits his release. Brown was for-
merly a mail carrier here.

Killed Man and Struck Wife.

Raleigh, N. C., Oct. 5.—Resulting
from a quarrel as to obeying orders
given by Charles Layton, foreman of
a dairy here, to Andrew Mooneyham,
Layton struck Mooneyham over the
head with a shovel, crushing the skull
and killing him. Mooneyham was
advancing on Layton with a stick at
the time. Mooneyham's wife came
up and saw her husband lying on the
ground. She attacked Layton, who
struck her with his fist and knocked
her down. She is in a serious con-
dition. Layton was arrested.

Will Operate Steamers and Barges.

St. Louis, Oct. 5.—The successful
navigation of the Missouri river be-
tween St. Louis and Kansas City by
the steamer Lora has resulted in the
organization of a company which will
operate two steamers and several
barges in the St. Louis-Kansas City
trade.

COTTON CUT ABOUT ONE-THIRD

This is Estimate of Mr. W. H. Sey-
mour in Alabama.

Montgomery, Ala., Oct. 5.—Presi-
dent W. H. Seymour of the Alabama
division of the Cotton association has
received reports enough to justify him
in the estimate that the crop of Ala-
bama was hurt at least 25 per cent by
the storms of last week. He be-
lieved that the crop in Alabama was
at least 20 per cent short before that
time, which would give a total short-
age of the season of something like 35
per cent.

Mr. Seymour now has reports from
40 counties and the record of devas-
tation is pitiable. Whole fields have
been destroyed and in many cases the
fields are ruined. The only section
of the state that escaped maximum
injury is the eastern section, and
some portions to the north, where the
cotton was not knocked from the
bolls. But in these cases the weather
has been so damp the seed have
sprouted in the bolls.

In the southern section the trouble
is two and three fold. Not only is
the cotton knocked from the bolls and
sprouting, but even now it is impossi-
ble to get any sort of labor to help
take care of what is left. The saw
mills and turpentine factories took
the labor, so that the cotton could not
be picked, and as a result the storm
caught the fields full of the well-open-
ed lint.

"In some sections the conditions are
calamitous," said Mr. Seymour. "I
hardly see what the people will do to
recover from it."

Another feature of the situation has
been presented in the remark of a
well known planter, who says that in
many parts of Montgomery's territory
the damage is so great to individual
farmers that there will have to be
some means devised to help them
back on their feet. They have lost
their crops in many cases, and have
no way to pay their debts. This will
have to be looked after, and there has
been talk in an indefinite way of
planning to help those who are thus
put out of the running.

The crop was already in bad shape
in Montgomery territory, and the
storm came along and in many sec-
tions completed the destruction. The
cotton knocked from the bolls is
strewn upon the ground, and begin-
ning to come up again, and the weath-
er has been so wet since the storm
as to make it impossible to save any
of the crop thus thrown to the dirt.
It is also a deplorable fact that other
crops are ruined, including corn and
vegetables, which were thought to be
saved. The corn is thrown down,
and often the ears are picked up a
mass of growing seeds, germinated
anew.

Adams Sends In Declination.

Savannah, Ga., Oct. 5.—The for-
mal declination of Judge Samuel B.
Adams of the nomination of the Dem-
ocratic convention for the First con-
gressional district, as a representa-
tive in congress, was received by the
committee Wednesday afternoon at 1
o'clock. The reply of Judge Adams
was sent to M. A. O'Byrne, a mem-
ber of the committee. This means
that when the convention meets here
Friday the contest between Walter
W. Sheppard and J. A. Brannen for
the nomination will be renewed. The
convention will meet in the city hall.

Operation Was Successful.

New York, Oct. 5.—The light that
failed three years and left Margaret
Huber, then 7 years of age, stone
blind, has been brought back by a
series of operations which ophthalmol-
ogists declare remarkable. The knife
was used in an extreme case of irido-
cyclitis, and the chances seemed to
be 100 to 1 that the operation would
be unsuccessful. Accepted authori-
ties on eye diseases state that in
such extreme cases are rarely suc-
cessful. John A. Price, of the opht-
halmic department of the German
Poliklinik, performed the operation.

Burning of a Courthouse.

Roldaville, N. C., Oct. 5.—The
courthouse at Westworth, the seat of
Rockingham county, North Carolina,
has been destroyed by fire. The blaze
was discovered at about 10 o'clock in
the store of Withers & Co. and the
citizens realizing that the courthouse
would be destroyed, saved all the rec-
ords.

DEMOCRATIC TICKET TRIUMPHS IN GEORGIA

Light Vote Cast All Over the
State.

RESULT BEING ANTICIPATED

An Official Count Will Be Necessary
to Determine the Winners in Race
For Judgeship of Court of Appeals.
Constitutional Amendments Carried.

Atlanta, Oct. 5.—The Democratic
party triumphed in the general state
election of Wednesday. Hoke Smith
was elected governor, with practically
no opposition, and all of the other reg-
ular party nominees, including S. G.
McLendon, candidate for railroad
commissioner, who was opposed by
T. C. Crenshaw, an independent,
swept the state easily.

In addition to voting for candidates
for office, the people also expressed
themselves upon three constitutional
amendments that were submitted.
Reports indicate that each amendment
was ratified by a substantial vote.

The amendments provide for the
creation of Ben Hill county, with
Fitzgerald as county site, and provide
for additional judges of the superior
court.

Little interest was taken in the
election and a light vote was polled
in all sections of the state. Weather
and crop conditions were largely re-
sponsible for the smallness of the vote.

Most of the regular Democratic can-
didates were opposed by Socialists,
but the reports indicate that in every
county in Georgia the Democratic
nominees received overwhelming ma-
jorities, the number of votes cast
being considered.

S. G. McLendon, Democratic nom-
inee for railroad commissioner, was
opposed by T. C. Crenshaw. The
latter failed to develop any strength
in any section of the state, and the
returns received up to a late hour
Thursday afternoon indicated that Mc-
Lendon had swept every county in
Georgia. He will succeed Joseph M.
Brown as railroad commissioner.

to the constitution.

Union Urges Boycott.

Macon, Ga., Oct. 5.—The Central
Labor union held a mass meeting at
the city auditorium Wednesday in
the interest of the street car strikers.
It was attended by several hundred
men, representing all classes. Hon.
Joe Hall was the leading speaker.
President Bailey of the union presided.
Strong enthusiasm marked the entire
meeting and the boycott was urged
in emphatic terms. The appeal to
the general public is that all people,
as far as possible, walk until an agree-
ment is reached. Merchants and busi-
ness men were urged to join in the
interest of the laboring men. The
railway company still stands firm in
plans to run the cars without union
labor. Nothing has been done to-
wards settling the difference, but
there has been no discord.

Armed Men Rob Frisco Bank.

San Francisco, Oct. 5.—Armed with
revolvers and pieces of gas pipe, two
robbers entered the Japanese bank at
Kimon Ginko, also known as the
Golden Gate bank, at 1533 O'Farrell
street, at noon Wednesday, and after
probably fatally beating two clerks,
escaped with \$5,000 in gold. The rob-
bers chose a time when there were
few persons transacting business in
the bank and the sensational and
bold deed was so quickly effected that
it was all over before the crowd of
people passing the doors of the in-
stitution were aware of what had
happened. S. Urakita, manager of
the Kimon Ginko, who was acting
as paying teller, and who was beaten,
died without having regained con-
sciousness.

Will Construct Immense Dam.

Panama, Oct. 5.—John F. Stevens,
chief engineer of the Panama canal,
informed the Associated Press Wed-
nesday that he had decided to con-
struct a big earth dam at LaBoco.
Preliminary work already has been
started and tracks are rapidly being
laid. The old town of LaBoco will
disappear and a new town is to be
erected at Sosa Hill, near Gatun. One
steam shovel is now working on the
dam, and Mr. Stevens expects to have
two more at work within a month.

Was Mother of 19 Children.

New York, Oct. 5.—Mrs. Emma
Chatklos, wife of Louis Chatklos, died
at her home in Tuckahoe Wednesday.
She is said to have been the mother
of the largest family in this state,
having had 19 children. Of this num-
ber, 10 are living. Mrs. Chatklos was
only 44 years old. Her eighteenth
child she named Theodore Roosevelt
Chatklos. Her oldest child is 24 and
the youngest 3. She was a native of
Hungary.

Great Granddaughter of Astor Weds.

New York, Oct. 5.—Miss Margaret
Chandler, great granddaughter of the
first John Jacob Astor, was married
Wednesday to Richard Aldrich of New
York at Barrytown, Ind., in the pres-
ence of a small number of kindfolk
and friends. The ceremony was per-
formed in the Episcopal church at
Barrytown. Mr. Aldrich is a well
known newspaper man attached to the
staff of the New York Times as an
editorial capacity.

75 PERSONS BURIED IN BURNING MINE

Explosion Occurs at Scene
1902 Disaster.

RESCUE PARTIES BRAVE FLAME

Great Excitement Prevails in Vicin-
ity of Bluefield, W. Va., Scene of Bl-
uefield, W. Va., Oct. 5.—As
result of an explosion Wednesday
afternoon, at the West Fork mines,
the Pocahontas Collieries compa-
ny, where the explosion of 1902 occur-
ed, in which Superintendent Wal-
ter O'Malley and 16 others lost their
lives, 75 men are supposed to be entombed.
Two rescue parties have entered
the mines, and only two men, nam-
ed Dolbert and Godash, have so far been
rescued and revived.

The mine is reported to be on fire
and the work of rescue is retarded.
The cause of the explosion is
determined.

Great excitement prevails in
neighborhood of the mines. Crowds
of men, women and children remain
around the drift mouth anxiously
awaiting news of relatives and friends
among the missing.

The work of rescue is going
slowly, because of the fire in
mine, and because of the lack of
fice cloth, a carload of which is
being hurried forward on a special train
from Bluefield. It is hardly possi-
ble that the results of the explosion
will be known definitely for 12 hours.

The entire town is excited
by the catastrophe which is the worst
since the disaster in the mine
when about 20 miners' lives were
snuffed out.

The force of the explosion was
hardly noticeable at the mine's mouth
as the entry in which it occurred
is 2½ miles in the mountains, al-
though a number of men in the south
mine were almost suffocated before
they were rescued.

FAIR WELL UNDER WAY.

Better Weather on Second Day
Central City Park.

Macon, Ga., Oct. 5.—Macon's
entered the second day with be-
indications of a large attendance.
The heavy weather broke away
the park was filled with people.
In the afternoon. There were
many exhibits being hurried into
Wednesday morning, and it will
be late in the week before every ex-
hibit has had the last touch.

Many people came from all di-
rections Wednesday, and the town
seems to have taken on new life since
emerging from the heavy down-
pour of rain Tuesday. There have
been indications of heavy attendance
for the week has passed, and
far the officials have been plea-
sed with the success of the undertaking.
On account of the weather this
has been practically the opening day.
The attractions are lining up
and will be well under way by Satur-
day. Fine exhibits of farm and live
stock are now ready and Thursday
bring many hundreds of people
are expecting to view the ex-
hibits.

Doctor Shoots a Merchant.

Montgomery, Ala., Oct. 5.—J.
Seals, a merchant of Troy, Ala.,
shot and probably fatally wound
his store by Dr. B. F. Scott.
The shots were fired as Seals was
receiving a receipt for the surgeon. Dr.
Seals claims that the merchant had
endeavored to horsewhip him.

Starch Factory Burned.

New York, Oct. 5.—The starch
plant of the National Starch com-
pany at Glen Cove has been destroyed
by fire. The buildings covered an
area of 2 acres and was the most
complete starch manufactory in the
state. The loss is about \$1,000,000.

BAD NEGRO IS RECAPTURED.

Randal Brown Had Skipped Bond and
Fled to Cuba.

Waycross, Ga., Oct. 5.—The ar-
rest of Randal Brown, Jr., a negro,

Will Operate Steamers and Barges.

St. Louis, Oct. 5.—The successful
navigation of the Missouri river be-
tween St. Louis and Kansas City by
the steamer Lora has resulted in the
organization of a company which will
operate two steamers and several
barges in the St. Louis-Kansas City

COTTON CUT ABOUT ONE-THIRD

Adams Sends in Declination.

Savannah, Ga., Oct. 5.—The for-
mal declination of Judge Samuel B.
Adams of the nomination of the Dem-
ocratic convention for the First con-
gressional district, as a representa-
tive in congress, was received by the
committee Wednesday afternoon at 1
o'clock. The reply of Judge Adams
was sent to M. A. O'Byrne, a mem-
ber of the committee. This means
that when the convention meets here
Friday the contest between Walter
W. Sheppard and J. A. Brannen for
the nomination will be renewed. The
convention will meet in the city hall.

DEMOCRATIC TICKET TRIUMPHS IN GEORGIA

Light Vote Cast All Over the
State.

RESULT BEING ANTICIPATED

An Official Count Will Be Necessary

Constitutional Amendments Carried.

Atlanta, Oct. 5.—The Democratic

election of Wednesday. Hoke Smith
was elected governor, with practically
no opposition, and all of the other reg-
ular party nominees, including S. G.
McLendon, candidate for railroad
commissioner, who was opposed by
T. C. Crenshaw, an independent, swept
the state easily.

In addition to voting for candidates
for office, the people also expressed
themselves upon three constitutional
amendments that were submitted.
Reports indicate that each amendment
was ratified by a substantial vote.

The amendments provide for the
creation of Ben Hill county, with

for additional judges of the superior

Little interest was taken in the

in all sections of the state. Weather

vote.

Most of the regular Democratic can-

but the reports indicate that in every
county in Georgia the Democratic
nominees received overwhelming ma-
jorities, the number of votes cast
being considered.

S. G. McLendon, Democratic nom-
inee for railroad commissioner, was
opposed by T. C. Crenshaw. The
latter failed to develop any strength
in any section of the state, and the

Union Urges Boycott.

Macon, Ga., Oct. 5.—The Central
Labor union held a mass meeting at
the city auditorium Wednesday in
the interest of the street car strikers.
It was attended by several hundred
men, representing all classes. Hon.
Joe Hall was the leading speaker.
President Bailey of the union presided.
Strong enthusiasm marked the entire
meeting and the boycott was urged
in emphatic terms. The appeal to
the general public is that all people,
as far as possible, walk until an agree-
ment is reached. Merchants and busi-
ness men were urged to join in the
interest of the laboring men. The
railway company still stands firm in
plans to run the cars without union
labor. Nothing has been done to-
wards settling the difference, but
there has been no discord.

Armed Men Rob Frio Bank.

San Francisco, Oct. 5.—Armed with
revolvers and pieces of gas pipe, two
robbers entered the Japanese bank at
Kimon Ginko, also known as the
Golden Gate bank, at 1588 O'Farrell
street, at noon Wednesday, and after
probably fatally beating two clerks,
escaped with \$5,000 in gold. The rob-
bers chose a time when there were
few persons transacting business in
the bank and the sensational and
bold deed was so quickly effected that
it was all over before the crowd of
people passing the doors of the in-
stitution were aware of what had
happened. S. Urakita, manager of
the Kimon Ginko, who was acting
as paying teller, and who was beaten,
died without having regained con-
sciousness.

Will Construct Immense Dam.

Panama, Oct. 5.—John F. Stevens,
chief engineer of the Panama canal,
informed the Associated Press Wed-
nesday that he had decided to con-
struct a big earth dam at LaBoca.
Preliminary work already has been
started and tracks are rapidly being
laid. The old town of LaBoca will
disappear and a new town is to be
erected at Sosa Hill, near Gatun. One
steam shovel is now working on the
dam, and Mr. Stevens expects to have
two more at work within a month.

Was Mother of 19 Children.

New York, Oct. 5.—Mrs. Emma
Chattlos, wife of Louis Chattlos, died
at her home in Tuckahoe Wednesday.
She is said to have been the mother
of the largest family in this state,
having had 19 children. Of this num-
ber, 19 are living. Mrs. Chattlos was
only 44 years old. Her eighteenth
child she named Theodore Roosevelt
Chattlos. Her eldest child is 24 and
the youngest 3. She was a native of
Hungary.

Great Granddaughter of Astor Weds.

New York, Oct. 5.—Miss Margaret
Chandler, great granddaughter of the
first John Jacob Astor, was married
Wednesday to Richard Aldrich of New
York, at Barrytown, Ind., in the pres-
ence of a small number of kindred
and friends. The ceremony was per-
formed in the Episcopal church at
Barrytown. Mr. Aldrich is a well
known newspaper man attached to the
staff of the New York Times in an
editorial capacity.

75 PERSONS BURIED IN BURNING M

Explosion Occurs at Scene
1902 Disaster.

RESCUE PARTIES BRAVE FLA

Great Excitement Prevails in Vic-
inity of Bluefield, W. Va., Scene of
Up—Men, Women and Chil-
dren Crowd Around Drift Mouth.

Bluefield, W. Va., Oct. 5.—As
result of an explosion Wednesday
afternoon, at the West Fork mine,
the Pocahontas Collieries com-
pany, where the explosion of 1902 occur-
ed, which Superintendent W.
O'Malley and 16 others lost their
lives are supposed to be entombed.
Two rescue parties have entered
the mines, and only two men, Mr.
Dobert and Godash, have so far
been rescued and revived.

The mine is reported to be on
fire and the work of rescue is retarded.
The cause of the explosion is deter-
mined.

Great excitement prevails in
neighborhood of the mines. Crowds
of men, women and children remain
around the drift mouth anxiously
awaiting news of relatives and friends
among the missing.

The work of rescue is going
slowly, because of the fire in
the mine, and because of the lack of
rice cloth, a carload of which is
being hurried forward on a special
train from Bluefield. It is hardly pos-
sible that the results of the explosion
be known definitely for 12 hours.

The entire town is excited
by the catastrophe which is the
since the disaster in the mine
when about 20 miners' lives
were snuffed out.

The force of the explosion
hardly noticeable at the mine's mouth
as the entry in which it occurred
is 2½ miles in the mountains, alt-
hough a number of men in the south
were almost suffocated before
they were rescued.

indications of a large attendance.
The heavy weather broke away
and the park was filled with people

late in the week before every
exhibit had the last touch.

Many people came from all
directions Wednesday, and the town
to have taken on new life since
emerging from the heavy down-
pour of rain Tuesday. There have
been indications of heavy attendance
for the week has passed, and
far the officials have been pleased
with the success of the undertaking.
On account of the weather the

well under way by Saturday.

stock are now ready and Thursday
bringing many hundreds of people
are expecting to view the ex-
hibits.

Wills Granted Bail in the
Sum of \$3,000.

Prisoner Now at Home With His
Family—Judge Wills Unhesitatingly
Decided Case Bailable One Upon
Showing the Evidence.

The habeas corpus case of William
Thomas, before Judge Wills at Starke
today, on appeal from Justice Col-
lier's court, in which bail had been
granted the prisoner for killing Maxie
Held, resulted in bail being granted
the sum of \$3,000. The lawyers ar-
gued the case briefly, after which
Judge Wills rendered his decision, and
Thomas promptly gave the required
bond and returned to his home.

It was the general opinion of those
who heard the evidence at the prelim-
inary trial that bail would be granted
by Judge Wills.

A BEAUTIFUL TRIBUTE.

Miss May Moore of Antioch Passed
Away in Macon Recently.

May Moore, born near Antioch, Fla.,
January 20, 1891, died in Macon, Ga.,
September 26, 1906, aged fifteen years,
eight months and six days.

After being confined to her bed for
only one short week with bilious fever,
she breathed her last at 8 a. m. Wed-
nesday, September 26, and passed into
the great beyond.

Her parents and physician had care-
fully and lovingly nursed her through
the fever, and all thought her safe,
when the brittle thread of life was
broken and her gentle spirit passed
away.

From her earliest childhood she was
devotedly loved by her fond parents,
and their great ambition in life was to
rear their darling aright. Every
means at their command was used by
them to educate, cultivate and de-
velop her properly with each succee-
ding year. And great was the reward
of their labors.

In school she ranked first in her
studies and deportment. She faithfully
applied herself to all tasks imposed
on her, and stood first in her classes.

She was the light and sunshine of
her home, and doubly repaid the love
and affection bestowed on her by her
parents. She enjoyed the love, es-
teem and confidence of all her play-
mates, and her friends were only
numbered by her acquaintances.

She possessed rare musical talent and
her music was an ever-increasing joy
and pleasure to her parents and friends.
She was an excellent performer on the
piano for her age, and steadily im-
proving.

But she became so dear to her par-
ents and friends that our Lord and
Master called her, and her earthly
body now rests in beautiful Antioch

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-
papers is sure to know of the wonderful
cures made by Dr. Kilmer's Swamp-

successful in promptly curing lame back,
uric acid, catarrh of the bladder and
Bright's Disease, which is the worst
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not rec-
ommended for everything but if you have
kidney, liver or bladder trouble it will be
found just the remedy you need. It has

work and in private practice, and has
proved so successful in every case that a
special arrangement has been made by
which all readers of this paper, who have
not already tried it, may have a sample
bottle sent free by mail, also a book tell-
ing more about Swamp-Root, and how to
find out if you have kidney or bladder trou-
ble. When writing mention reading this

FOR SHOOTING CRAP THE MEN ARE FINED

Marshal Pinkoson and Officer
Warren Made a Big Haul.

THE FINES WERE LIGHT

But Despite This Two Were Unable to
Pay Out, and Must Serve Fifteen
Days Working On the Streets—A
Joyful Crap Game Interrupted.

One of the most important sessions
of the mayor's court held in Gaines-
ville for several months was that of
Friday morning, when nine offenders
of the law were hauled up on
the charge of indulging in that great
game familiarly known among the col-
ored population as craps.

The information was published in
The Sun of Friday morning, stating
that Officer Pinkoson had arrested
these men while engaged in the favor-
ite game. The Sun neglected to men-
tion that Officer Pinkoson had been as-
sisted by Chas. Warren, who has served
before on such missions and knows
how to handle them. The whole bunch
had been taken in, and some gave
bond, while others were required to go
to jail.

In the mayor's court all were ar-
raigned and fined \$2.50 and costs each.
Tom McFadden, Will Bell, Mack Tis-
bee, Mack Street, Thomas Hicks, H.
Anderson and Will White paid their
fines, while Chas. Hill and William
Rowe could not raise the price, and
were remanded to jail. They will
serve fifteen days on the streets if
they cannot produce the amount of
the fine and costs.

enough to ward off consumption.

DEATH OF DR. WM. SUTHERLAND

Dead Away While Reclining in
a Hammock Friday.

A PROMINENT MAN

enged to Numerous Orders, and
has been Identified for Several
years as a Surgeon of the Atlantic
Coast Line, and a Man of Ability.

While laying comfortably in a ham-
mock, apparently at ease and enjoy-
ing rest after taking a drive Friday
morning, Dr. William Sutherland of
High Springs suddenly fell back, rasp-
ing a few times, and in the presence of
friends died within five min-
utes.

Withstanding that the aid of two
physicians who happened to be in the
Fellows' Sanitarium, where the
death occurred, were summoned, and
every effort was made to save the
life, Dr. Sutherland passed
away as he had lived—peaceably and
in a generous and happy manner.

He was fifty-four years of age,
was a French Canadian by birth,
and was born in the Province of
Quebec. He has been in Florida for
over fifteen years, the greater part
of which time he has spent at High
Springs, where he was well known and
popular, and where he had gained a
wide and lucrative practice. In con-
nection with his regular practice he
was surgeon in the employ of the
Atlantic Coast Line, which in the main
kept him to settle in High Springs.

Dr. Sutherland was a very clever, always good and gener-
ous, and gained friends who have al-
ways stood by him, and who will re-
gret to learn of his sudden death.

Dr. Sutherland came to this city on
Friday, where he went to the hospit-
al and underwent a surgical operation.
This operation had nothing to do
with his death, as physicians claim
it was kidney or bladder trouble.
While undergoing this operation he has
been quite active, and in fact never
went to bed. He was out for a
Friday afternoon, was in excel-
lent spirits, and had a talk with friends
concerning his future and certain business
matters which he proposed to put into
writing, regarding especially some val-
uable property which he owned in this
city.

He had talked of the benefits
the improvements now being
made, and stated that he was willing
to share of the burden, and
to further improve his prop-
erty that it would realize to him a
large percentage.

After this drive that Dr. Suth-
erland, apparently fatigued, sank into
a hammock at the Odd Fellows'
hall, where he was located—and in
minutes he was dead.

Dr. Sutherland was at High
Springs. She was communicated with
by telephone, and will arrive in the
city by first train this morning. De-
ceased has several children in the
family, all of whom have been notified,
and the remains have been turned over
to the undertaker Robert McClellan, who
will hold them until the arrival of
children who can come.

Dr. Sutherland was a prominent secret so-
cietarian, being a member of the Ma-
sonic Fraternity, Odd Fellows, Knights
of the Ku Klux Klan, Elks and Red Men. The
body will likely take charge of the
funeral when it is decided to
hold the interment. Being a mem-
ber of the Episcopal church, it is to be
expected that the ritual of that church
will be observed in the burial service.
It has not yet been decided where
the interment will take place.

Dr. Sutherland is survived by a widow and
four children. He was a brother-
in-law of Mrs. M. B. Saunders of this
city.

THE NEWS FROM WINDSOR.

Opening of School With Twenty Pu-
pils—White Fox After Chickens.

Windsor, Oct. 5.—People around
Windsor are busy planting fall gar-
dens. There are several patches of
fall beans that are up nicely and look
very promising. Sugarcane is profit-
ing by the continued rains and the
prospects for syrup look very good
throughout this section.

Hon. J. A. Rosborough and daugh-
ter, Miss Lillian, started for North
Carolina Thursday, where Miss Lillian
is to enter school.

O. L. Hobbs and family moved into
Windsor last week. We are glad to
welcome them and hope they will be-
come permanent residents of our little
village.

C. R. Spivey of this place has ac-
cepted a position with Mr. Bobbitt of
Micanopy, and started Tuesday to take
up his duties.

Mrs. Hobbs opened school Monday
with an enrollment of twenty pupils.
The patrons and children all look for-
ward to a successful term.

A number of the people have had
considerable annoyance lately in the
way of something disturbing the
chickens at night. Last evening, J.
W. Tillman, L. E. Story and S. D.
Thomas determined to watch for the
depredator at the chicken roost of Mr.
Tillman, which had been visited quite
frequently of late. Near midnight they
succeeded in seeing the cause of all
the trouble. It was a fox, and the pec-
uliar part of it is, they declare the
fox was snow white. They tried to
effect a capture but Reynard conduct-
ed a successful retreat to the woods.

Ayer's Pills are liver pills. They act directly
on the liver, make more bile secreted. This
is why they cure constipation, biliousness,

"A Cod and a French Cook Can Work
Miracles"—The Breast of One
"Chicken" Has Been Known to Sat-
isfy Twelve Hungry Diners.

It has almost passed into a proverb
that many of the dishes served up in
cheap restaurants, where nothing is
wasted, are, to put it mildly, mysteries.
But, on the other hand, most people
who patronize fashionable and more
ambitious restaurants are generally
content to accept the menu for what it
is said to be. This blind trust is some-
what abused, and the amount of "fak-
ing" which goes on today in some of
the well to do establishments would
probably surprise those who are un-
initiated in the higher branches of the
culinary art.

For instance, by the addition of veg-
etable juice just before being dished
up cod cutlets are, at seasons when
salmon is very dear, set before cus-
tomers as salmon cutlets and are,
needless to say, charged accordingly.
This deception, according to an ex-
chief, is wisely practiced not only in
better class restaurants, but also on
some of the great liners.

Another popular trick as practiced
by the restaurateur is to serve a veal
beef done up overnight in salted band-
ages, while a skillful chef has very
little difficulty in palming off flatfish
for sole on epicures who pride them-
selves on the soundness of their judg-
ment of cooking.

On one occasion some time ago a
dinner for seventy-five people was or-
dered at a well known fashionable res-
taurant in the upper part of New York.
A large consignment of salmon had
been previously ordered, but, to the
consternation of the chef, the dinner
hour slowly approached and still no
salmon arrived.

In despair the chef, a Frenchman,
decided to "take the bull by the horns"
and procure another fish to do duty for
the coveted salmon. Accordingly he
sat to work to turn cod cutlets into salm-
on cutlets, and this rapid transforma-
tion was soon effected by an addition
of vegetable juice. The waiters, who
naturally were aware of this whole-
sale deception, were given express or-
ders to report any complaints to the
chef at once. However, to the intense
delight of the chef, all passed off well,
and on hearing that his subterfuge had
not been detected he gleefully ex-
claimed, "Ah, a cod and a French cook
can work miracles."

Green peas at certain seasons of the
year are naturally a luxury quite be-
yond the reach of the man of average
means, while even caterers for fash-
ionable hotels themselves frequently have
the greatest difficulty in getting a suf-
ficiently large quantity to meet the de-
mand. However, to fake peas does not
offer any great difficulty in times of
stress, and by adding vegetable color-
ing matter yellow peas are quite com-
monly served up as green peas along
with the duck and flavorless new po-
tatoes, which more often than not
come from abroad.

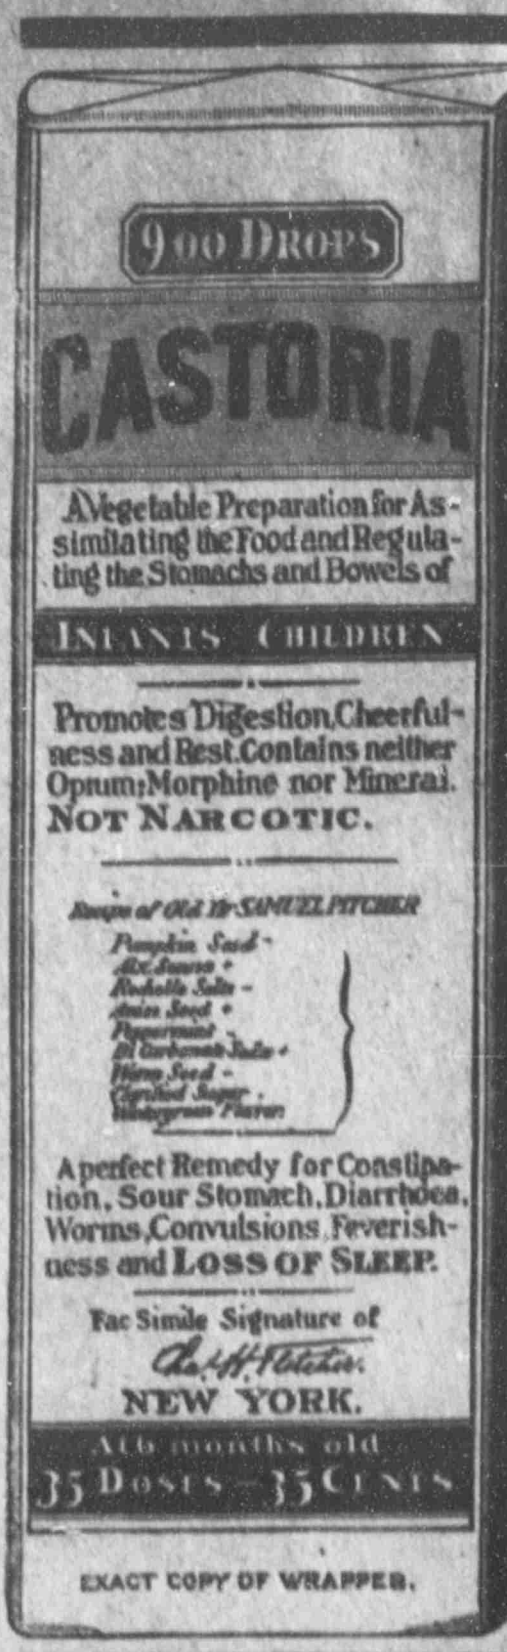

Roast veal served with a thick white
sauce makes, says a well known chef,
a most satisfactory substitute for the
breast of chicken, and therefore it does
not come altogether as a surprise to
learn that the breast of one chicken
has been known to satisfy twelve
hungry diners.

"The staff take good care of the
breast of a chicken," was the comment
of a waiter who was being for the first
time initiated into the mystery of how
to feed a dozen people off one chicken.

Perhaps the cleverest deception prac-
ticed by eminent chefs is the art of
manufacturing the lobster patty, so
dear to the heart of the epicure. This
appetizing dainty would at first sight
seem to defy even the most ingenious
cookery fakir. However, here again
the artful chef has overcome apparently
insuperable difficulties, and many tooth-
some looking lobster patties are thus
not always quite what they are said
to be.

The deception is worked in this way:
A common crustacean is boiled and the
meat carefully chopped off and put into
a mortar, while afterward part of the
shell is added. The mixture is then
vigorously pounded as fine as possible,
and on the addition of flavoring it
would tax the powers of the most
critical connoisseur to detect any dif-
ference between the gastronomic mix-
ture and the genuine lobster patty.

"The various deceptions I have told
you of," remarked a famous chef to
the writer, "are naturally not prac-
ticed every day, but are only utilized
in times of emergency, and these em-
ergency moments arrive more frequently
than the trustful customer would like
did he but know."—New York Tele-

BODY FOUND MILES AWAY.

Remains Were Those of Child at Bridge Tender.

Pensacola, Fla., Oct. 5.—The body of one more storm victim was recovered Wednesday. The body is supposed to be the child of J. T. Mathews, tender of the Escambia bridge, who lost his wife and two children. It was found 5 miles distant, and so decomposed that it was buried at once.

The work of clearing away the wreckage has progressed so far that the semblance of the lower portion of the city has been restored and business assuming normal conditions.

Thursday the saloons were allowed to be opened, under restrictions, and for the first time since last Wednesday night, street cars were operated Wednesday afternoon on the city streets.

The revenue cutters Winona and Cassenden are both here, and will start out Thursday morning to make a close inspection of the coast between this port and Mobile. The Winona could find no vessels in distress on the trip over. Both vessels have been tendered the relief committee, and will carry provisions to various points up the sound and along the coast where settlements have been wiped out, and families are known to be destitute and almost starving.

Cleveland Suggested for U. S. Senate.

New York, Oct. 5.—The World editorially suggests Grover Cleveland to the Democrats of New Jersey who are seeking a candidate for United States senator. After reciting that the election of Mr. Cleveland would not be without precedent, two former presidents having served in congress after leaving the White House, the World says: "Mr. Cleveland undoubtedly would not be a candidate for United States senator in the sense that he would actively seek an election. But if the New Jersey legislature should elect him, who can believe he would decline? When did Grover Cleveland ever shrink a public duty?"

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

Millions of Securities Auctioned.

New York, Oct. 5.—Securities having a face value of \$4,500,000 and representing the entire capitalization of the Empire Sugar Refining company, have been sold at public auction at Adrian H. Muller's auction rooms. The company is one of the sugar concerns started by Adolph Segal, whose loans had much to do with wrecking the Real Estate Trust company of Philadelphia.

Court Affirms Death Decree.

El Paso, Tex., Oct. 5.—A special from Chihuahua says the Mexican supreme court has handed down a decision affirming the death sentence in the case of Richardson, Harle and Mason, the life insurance company swindlers. They will be shot. The men were convicted of murdering two men, Mitchell and Devers, for their insurance. Richardson and Mason were agents and Harle the examining physician for the insurance company at Chihuahua. The men were arrested in El Paso four years ago and extradited after a long fight. Richardson, whose name is Leslie E. Hulburt, was at one time an attorney in Rochester, N. Y. Mason's real name is Mitchell and he is a brother-in-law of Richardson (Hulburt) and a brother of one of the men murdered at Chihuahua for insurance.

Delay Caused Fight.

Constantinople, Oct. 5.—The delay on the part of the Turkish commissioners to sign the report resulting from the inquiry into the frontier dispute regarding the delimitation of a portion of the Vilayet of Adrianople, which led to a sharp fight recently between the soldiers guarding the Bulgarian postal Sujuk and guard on duty at the Turkish port of Dervish Mogila, has brought out practically an ultimatum from Bulgaria, in which the country declares that unless the report is signed by Oct. 14, the Bulgarian troops will be ordered to immediately re-occupy Sujuk.

Three Convicts Escape Jail.

Thomasville, Ga., Oct. 5.—Three negroes, serving long terms in the Thomasville county chaingang, dug through the walls of the county jail Thursday morning before daylight and made good their escape. The sheriff was aroused and quickly gathering a posse together started in hot pursuit. The searchers expect to capture the fugitives before night. The negroes had cut their shackles and succeeded in arming themselves.

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by W. M. Johnson.

The Osprey.

In the highlands of Scotland at the present time the osprey usually makes its nest in the flat top of a pine tree, but formerly it just as frequently selected a battlement or a chimney of some ruin, generally on an island. The nest is a pile of sticks as much as four feet high and as many broad—the accumulation of many years—intermixed with turf and other vegetable matter, lined with finer twigs and finally with grass, much of it often green.—Glasgow Times.

Don't Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Menagerie at Home.

Jones declined to visit the zoo with his friend, says London Health. "I don't have to go to the zoo," he said, "because my eldest daughter does the kangaroo walk, my second daughter talks like a parrot, my son laughs like a hyena, my cook is as cross as a bear and my mother-in-law says I'm an old gorilla."

Willing to Try.

Stern Father—You want to marry my daughter, do you? Young Man—I do. Stern Father—What's your salary? Young Man—Oh, I'm not particular. Just give me a trial of three months, and if I fail to give satisfaction as a son-in-law you need not pay me any salary.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures is grippe, cough, and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

SUFFERED FOR YEARS WITH A PELVIC DISEASE

Robust Women Who Owe Their Restored Health and Usefulness to Pe-ru-na.

Read the Letters of Gratitude From Women Who Have Been Benefited By Dr. Hartman's Advice.

A Multitude of Such Letters Are Received Every Year.

A TYPICAL LETTER.

Mrs. Carry Peduzzi, Linstad, N. Dak., writes:

"I take pleasure in telling you that through your wonderful medicine I am entirely cured of catarrh of the stomach and pelvic organs."

"I was so rundown on account of my illness that I could no longer attend to my housework. I could not eat or sleep and had terrible pain in my back."

"I took Peruna and in five months I was well. I have not felt so well for a long time."

"I wish everyone who is sick would take Peruna and thus recover their health."

"I have Peruna in the house continually. I thank you for all that you have done for me."

A Medicine of Merit.

Miss Katie A. Washer, 1706 Prentice street, Louisville, Ky., writes:

"As my experience has been so favorable from the use of Peruna, I unhesitatingly state that I believe that it is a medicine of unquestioned merit for all the ills that we women suffer from."

"I find that it strengthens and infuses new life into the system, and whenever I feel rundown or over-tired, a few doses of Peruna will strengthen me again."

Found a Friend in Need—Pe-ru-na.

Mrs. Florence Aitkens, 1104 Front St., Toledo, Ohio, writes:

"Peruna cured me of catarrh of the uterus. I took about four bottles when I noticed an improvement and five bottles cured me."

"I do not know what I would have been like to-day had I not obtained Peruna, for I was in a terrible state."

"I had pains all over, and was cross and irritable. I was losing hope of ever being well again."

"I am to-day a well woman after suffering for nine months. I cannot tell you how happy I feel, but you will know."

"Peruna is the best medicine on earth. My husband is now taking it and I will always keep Peruna in my house."

"Peruna is the best friend I ever had. It cured me."

Scull and Skull.

"Sculls" and "skulls" are really one word in origin, and both at various times have been spelled capriciously with a "c" or a "k." Pepys, the diarist, tells how he went on the Thames at one time "in a scull," at another in a "skinner." The origin of the word is "skulle" or "sculle," a bowl or goblet. While the cranium was obviously bowl-like in shape, a distant resemblance to a bowl was also detected in the scooped out blade of a "scull" as opposed to the flat blade of an oar proper.

Talking Behind Her Back.

"Don't you know, dear," said his wife sweetly, "that it is wrong to talk behind a person's back?"

He was trying to button her waist at the time, and really there seemed to be provocation for his remarks.—Philadelphia Ledger.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of pelvic catarrh.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will give their letters prompt attention, without charge.

Miss Anna McGinn, 161 Plain street, Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me."

"I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna."

"I got a bottle of your Peruna and after a week's use of it I began to feel better. I could not eat, sleep, or work, but I have at last found that the medicine that will cure me is Peruna."

THE NEGRO IN JACKSONVILLE.

The police department of the city of Jacksonville ought to profit by the lesson of the Atlanta riot and at once close the many dives operated by negroes. We venture the assertion that there is not a city in the South where the negro is given such full sway as in Jacksonville. That city has long been looked upon as the negro paradise of the South, and it is evident that she has earned the distinction.

There are a great many industrious and honest negroes in the city of Jacksonville. It is a fact that the race in that city has made great progress and that it is well represented on the tax books of both the city and of Duval county, but there are entirely too many of the worthless class in some of the sections of Jacksonville, if we are to depend upon some of the reports in the papers of that city from time to time. And to make matters worse, Jacksonville has some of the most vicious trouble-makers among her negro population to be found in the country. Recently a negro paper published there was bold enough to openly attack the white people of the South and charge that they were inciting the negro to assaults upon the women of the South. The utterances of this negro journal would be accepted seriously and have prompt attention if it were published in almost any other city of the South. Saying less than did the Jacksonville colored paper, forced a negro editor and preacher to leave Augusta between sons. But in Jacksonville the negro has too much away and too little attention is paid to seeing that he is kept within bounds. Two negroes have for years been permitted to occupy seats in the city council, and one of them was recently insultingly arrogant in his references to his colleagues.

The time has come when the white people of the South cannot afford to tolerate the negro in any public position. Jacksonville may not realize this now, but she will in the very near future.

TOO MUCH GREED.

The death of the new Cuban government was the direct result of political greed, and not of mismanagement of the affairs of the island, as has been charged.

It was the same old story of the Latin American. Once a crowd of politicians get into office, there they remain until they have been ousted by a force of arms. It matters not which one of the two political factions of Cuba were in charge of the government, the row would have come just the same. The recent developments in Cuba remind us of a statement accredited to Dr. Andrade, formerly the Venezuelan minister to the United States. He was asked by ex-President Cleveland how presidents were elected in this country. The reply came quickly and without much thought. It was: "By force of arms."

That expresses the situation precisely in all the Latin-American countries. By force of arms the element in charge will retain their power, if really they are not elected in that manner. We can see but little hope for the Cubans. Once this squabble is settled, and another president elected, there will be another protest for a new election, and if that protest is not granted the United States may be depended upon to take charge of affairs if this dissatisfied element can succeed in making sufficient noise. When Secretary Taft assumed charge of the Cuban government the Republic of Cuba was just as dead as though the island had been swallowed up by the sea. The Cubans may have another chance, but the example set by the

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: E. J. CANNON & Co., Toledo, O. Sold by druggists. Take Hall's Family Pills for constipation.

American government is not calculated to make Cuba behave herself. We have taken charge of the affairs of that island and in doing so have sided with the revolutionists. The next gang which is not satisfied at the manner in which affairs are being conducted in Cuba may secure the same favor from this government by asking for it.

A girl in her teens with too many and too costly clothes on her back, gets self-conscious and vain, and loves admiration—and you grown-ups know the next step. A simple, pure-hearted girl, who has a place in a home, home-work and home duties, has her heart there and no boy can steal it. Even when maturity comes and a real man comes and a real affair of her heart comes, will such a girl leave home, and then only after heart-rending. But a girl who is at home only at the table and in the bed won't love that home. Work makes things sacred. The child whose home memories are not halloed by work, who is not needed and does not feel the need, will not love home. And if she doesn't love the home of her girlhood she will love no other. She will go anywhere for anything. Home will mean nothing to such a woman, and if she is respectable she will only lack the opportunity to be a bad woman and is good only through circumstances or by the necessity of an ugly face. She will curse any man she marries.

Three or four more libel suits would only add to the interest of Florida journalism. They seldom serve any other purpose.

SPIDERS OF CEYLON.

Golden Webs Will Ensnare Birds and Lizards.

Up in the mountains of Ceylon is a spider that spins a web like yellowish silk, the central net which is five feet in diameter, while supporting lines or guys, as they are called, measure sometimes ten or more feet. The spider seldom bites humans, but should any one try to catch him bite he will, and, though not venomous, his jaws are as powerful as a dog's beak.

Bodies of these spiders are very homely decorated, being bright scarlet underneath, while the upper part is covered with the most delicate slate colored fur.

Strong are the webs that birds the of larks are frequently caught in, and even the small but powerful scaly lizard falls a victim. A hunter says that he has often sat and watched the yellow monster—measuring when waiting for his prey, with his stretched out, fully six inches—sliding across the middle of the net and noted the rapid manner in which it winds his stout threads round the unfortunate captive.

It usually throws the coils about the head until the wretched victim is first choked and then choked. In many unlighted dark nooks of the jungle it come across skeletons of small birds caught in these terrible snares.

ENGRAVED PICTURES.

Their Romantic Origin Dates Back to the Fifteenth Century.

The art of engraved pictures dates its romantic origin to the chamber of a Florentine goldsmith, Maso Finiguerra, in the fifteenth century, about the time that Gutenberg was struggling with his printing from movable types. Before that day pictures were drawn or painted by hand. Finiguerra was a celebrated worker in metals, and, being commissioned to make a pax of gold engraved with a coronation of the Virgin, he sought to test his design by filling in the lines with a preparation of oil and lampblack, which threw the picture into relief. By chance the face was laid face downward on a piece of damp linen, and when taken up it was discovered that the picture was printed. Sheet after sheet of damp paper was impressed by the same plate and the good news that the art of printing pictures was born spread like wildfire throughout Europe. The collection of old prints introduces Albrecht Durer, the "father of line engraving" (1471) in four brilliant impressions of "Adam and Eve," "Little Horse," "Melancholia" and "St. Jerome." "Melancholia" is a strange composition of extraordinary originality, and has been a mystery for over four centuries. This bit of yellowed paper, possibly pulled from the plate by Durer's own hands, has lost none of its fascination.—Chicago Post.

NO SENTIMENT IN SIGHS.

They Are Simply Caused by a Desire For More Breath.

The sigh, which from time immemorial and by all the poets whoever sung has been regarded as a matter of sentiment and connected with the emotions, is declared by physicians to be as purely a physical phenomenon as is the sneeze or cough. A well known Philadelphia doctor, speaking of this the other day, explained that the sigh is nature's method of making one take a deep breath. When the lungs have been getting insufficient air a sigh is the means by which they are replenished, or when the air has been impure the sigh which one often takes in stepping out into the open air is from the same cause.

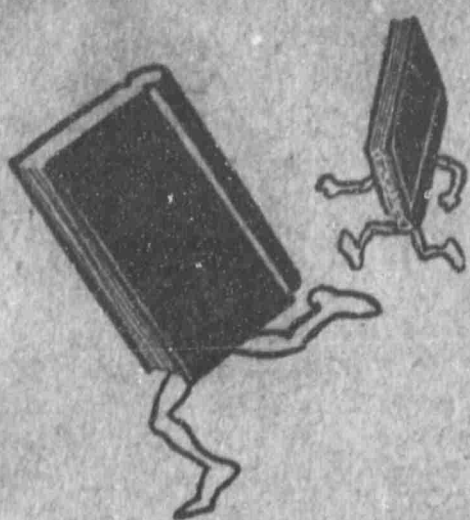

The doctor admitted that people sometimes sigh from sorrow or other mental ill, but maintained that this is partly because it has been accepted as the expression of grief through ages as long as kissing and handshaking have been accepted as signs of affection or friendship. Another reason why a sigh follows a sorrowful thought is that such thoughts are often concentrated and intense enough to cause insufficient breathing. When the lungs suffer for a certain time from this insufficiency the sigh follows. Sighs are often caused, too, says the same authority, by certain sorts of indigestion.—Philadelphia Record.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick of Danforth, Mo. "Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria, biliousness and weakness. Wonderful nerve tonic. Price 50c. Guaranteed by all druggists."

TESTING METHODS

A test as to the value of newspaper advertising over other methods was made a year ago by the great publishing house of Harper & Bros. Two books were selected, one by a well known popular author and the other by an unknown writer. The latter was selected for the newspaper advertising and the other for the usual channels.

With equal expenditure the work advertised in the newspapers outstripped the other in sales by 200,000 copies.

The result was a complete surprise and established the fact that readers go to the newspapers for information with regard to books as well as with regard to most other matters.—National Printer-Journalist.

The best advertising medium for any merchant is the local paper which goes into the homes of the people, as this paper does.

IMMUNE TO POISON.

Methods of the Snake Charmer of the Orient. Many years it was regarded as the East Indian miracle that the snake charmer of the Orient could enter the cobra in an arena, allow it to bite him time and again, and survive the deadly poison. The dangerous feat puzzled the doctors of the British army and was never understood by scientists generally until within recent years, when the East Indian snake charmer was found to take the cobra at an early age to make him immune from the venom of the snake. He takes the infant serpent and allows it to bite him. This injects the cobra with a very mild dose of poison. He repeats the operation several times, and then ventures to allow the cobra somewhat older to bite him. Gradually he permits himself to be inoculated with the venom of the cobra until he has become accustomed to the poison that his system is immune. By the time he is up he has become so thoroughly accustomed to the spell that it has no effect upon him. It is the drug habit—one can work up to a pitch of enduring a dose of cobra would be sufficient to kill several men unaccustomed to the influence of the drug. Thus the seemingly amazing trick was exposed as a very natural thing, after all.

When her dead body floated to the surface the five little birds were clinging with their beaks to her nose, but all had been suffocated by remaining too long under the water.—London Mail.

MADE FROM NATIVE ROOTS. SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might be the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power. For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

ORIGINAL NEW ENGLAND.

It is Said That It Was Located on the Pacific Coast.

There is a common saying that if the pilgrim fathers had only landed on the Pacific coast a large portion of the Atlantic seaboard would never have been settled. Californians, Oregonians and Washingtonians believe this implicitly. In other words, the charms of the Pacific coast in the way of climate are so appreciated that, having once experienced them, men are unwilling to live elsewhere contentedly. Now, not one man in a thousand living on the Pacific coast knows that as a matter of fact the accents of our mother tongue were heard on the beach not far from San Francisco forty-one years before English was spoken on Plymouth rock.

More amusing still is the fact that the original New England was on the Pacific coast, for Sir Francis Drake in 1579, at the close of a month's stay, took possession of the country for his sovereign, Elizabeth, and named the new acquisition Nouva Albion (New England) because he thought the white cliff near what is now Point Reyes resembled the chalk cliffs near Dover.—Alexander McAdie in Outing Magazine.

Napoleon Bonaparte

Showed at the battle of Austerlitz he was the greatest leader in the world. Ballard's Snow Liniment has shown the public it is the best liniment in the world. A quick cure for rheumatism, sprains, burns, cuts, etc. A. C. Pitts, Rodessa, La., says: "I use Ballard's Snow Liniment in my family and find it unexcelled for sore chest, headache, corns—in fact for anything that can be reached by a liniment." Sold by W. M. Johnson.

Avoiding the Doctor.

Dr. Sanderson, an old Scotch physician, was a queer character, but a clever doctor. So roughly did he handle his patients that the ignorant were chiefly anxious to escape him. The story goes that as he was passing along the street one day a sweep rolled from the top to the bottom of a staircase outside one of the houses. "Are you hurt?" called the doctor, running forward. "Not a bit, doctor—not a bit," replied the man in haste. "Indeed, I feel a bit better."

The first game of football of the season occurred Friday afternoon between the Gainesville and University teams, the score resulting in a victory for the town boys of fifteen to six. The game was fairly well attended, about 150 being present. There seemed to be considerable enthusiasm, and while the score was low, the game was thoroughly contested, and was a good one.

Road Overseer O. L. Thigpin was in the city yesterday. Mr. Thigpin states that the road between Paradise and LaCrosse, one mile of which he was directed to build by the county commissioners, is now graded and ready for the clay, and that work would begin next week. SEVENTH ADVENT MEETING.

A Series of Meetings Being Held at Church in North Gainesville.

The members of the Seventh Adventist Church of this section are holding a series of meetings at the church in North Gainesville.

These meetings are being held by Elder L. T. Chrisman of Orlando, a prominent young minister of that church who is just married, and who is here on his bridal tour. The Seventh Adventists think so much of him that they prevailed upon him to begin the meetings.

The first meeting was held Friday night at the little church in North Gainesville. This meeting was well attended, and Elder Chrisman delivered a fine and impressive sermon.

There will be another meeting at 10 o'clock this morning and at 7:30 this evening, and the same hours will be observed tomorrow.

Saturday being the Sunday, or Lord's Day, of the members of this church, there will no doubt be a good crowd at both services today.

Among the visitors to this city yesterday was T. J. Barnette of Palatka, foreman of the machine shop of the Wilson Cypress Company, one of the largest sawmills in the State. Mr. Barnette was en route to Lukins, where he was sent to superintend some repairs of machinery for the Tilghman Cypress Company. Mr. Barnette is not only a competent machanic, but a young man of high morals and intellect, and the friends he had in this city kept him busy "looking around" while he was here.

Mr. Hismith of North Gainesville, who recently had the misfortune to break his arm, does not feel that his condition should in any way call for assistance of neighbors gratis, hence he has, in order to earn a living for his family, decided to take the agency for several books. Mr. Hismith, while independent in a measure by virtue of his pride, is dependent also in a measure by the fact that he is unable to work. He has accepted the agency of several good books, one of which is entitled "Steps to Christ."
